

CASIO® TK-T200

Easy-to-use cash register,
with fully flat keyboard and
fast silent printer, ideal for the
hospitality environment.

www.casio.co.uk/systems

CASIO®

The Casio TK-T200 features a fully flat keyboard, fast silent thermal printer, check tracking and a range of other useful features that make it ideal for the small hospitality business.

CASIO® TK-T200

Receipt or journal printer

The TK-T200 features a fast, 58mm wide thermal printer. Printing speeds of 14 lines per second mean your customers will receive their receipts quickly. To give your business a professional appearance, graphic logos can also be printed. With easy drop-in paper loading for simple

paper roll replacement, the TK-T200 ensures fast and efficient operation.

Table control function

A basic table control function is provided for small restaurants, cafes and bars. Purchased items can be input against up to 30 table numbers, allowing easy check tracking.

Display

The TK-T200 features a bright, 2 line LCD operator display with 14 characters to display product details and an 8 digit display for product price. This means your staff can easily see the details of the items they are selling to ensure accuracy. A standard pop-up rear display ensures your customers can see the price they are paying, giving them peace of mind.

Calculator function

The TK-T200 features a useful calculator function. By simply turning the mode key, the numeric keys on the cash register can be used like a calculator for making more complex calculations. The calculator function can also be used whilst in the middle of a transaction, with the calculated figure being imported back into the transaction.

Rugged, multi-purpose cash tray

To help keep your desk area clean, the TK-T200 features a rugged multi-purpose cash tray. The upper tray can be used to store small articles such as pens and note pads, with the lockable lower drawer being used for money.

Reports and useful functions

Daily reports can be printed on the TK-T200 using compressed printing. Other useful functions include clerk interrupt, scheduler function, set menu function, arrangement function and memory allocation.

- Daily general report
- Open check report
- Monthly sales report
- Individual sales report
- PLU report
- Hourly sales report
- Periodic 1, 2 report
